While the overall market is efficient, pockets of inefficiency do exist. Wakefield Asset Management offers a unique investment strategy which we believe stands apart from the mainstream investment community. Focusing on proprietary investment techniques that not only identify market inefficiencies, but capture those inefficiencies over time. Wakefield uses a highly disciplined and technologically advanced process for research, security selection, implementation, and monitoring. The resulting portfolios exhibit a unique combination of characteristics with positive near-term expectations that, in our view, will be rewarded by the market in the period ahead regardless of market direction. In our management and research, our goals are Focus, Creativity, Intellectual Honesty, and Continuous Improvement.

Wakefield Biblically Responsible Equity Portfolio incorporates an additional layer in the stock selection process meant to exclude publically traded companies that do not adhere to a specific set of Biblical values. These additional screening criteria are closely aligned with the investing principles provided by the United States Conference of Catholic Bishops and Evangelical Christian investment guidelines.

Wakefield Asset Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Wakefield Asset Management has been independently verified for the periods July 1, 2003, through December 31, 2023. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

1. Past performance is not indicative of future results.
2. Returns include the reinvestment of income.
3. Partial year returns not annualized.
4. Wakefield Asset Management LLLP is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisors Act of 1940 with its principal place of business in the state of Colorado. Wakefield Asset Management LLLP is defined as an independent investment management firm that is not affiliated with any parent organization. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.
5. The Wakefield Biblically Responsible Equity strategy invests in stocks contained in the S&P 500 Index and/or stocks of issuers with over \$10 billion in market capitalization. These stocks are then screened to comply with biblically responsible investing guidelines provided by a third party.
6. The benchmark for the Wakefield Biblically Responsible Equity Composite is the S&P 500 Index. Index returns do not include the costs of any trade or transaction fees, investment management fees, taxes or other investment expenses. Investors cannot invest in an index and should not be relied upon as in any way representative of portfolio or investor performance or returns.
7. Valuations are computed and performance is reported in U.S. dollars.
8. Gross-of-fees returns for non-bundled fee accounts are reduced by trading costs and bundled-fee accounts are gross of all fees including trading costs. Composite and benchmark returns are presented net of non-reclaimable withholding taxes. Net-of-fees returns for non-bundled fee accounts are reduced by trading costs and the portfolio's actual investment management fee. Net-of-fees returns for bundled fee accounts are reduced by the entire bundled fee. The bundled fee may include costs such as: management, trading, custody, and other administrative fees.
9. The investment management fee schedule for the composite is 0.75% on the first \$10 million, 0.60% on the next \$15 million, and 0.55% on the remainder. Actual investment advisory fees incurred by clients may vary.
10. This composite was created July 31, 2015. A complete list of composite descriptions is available upon request.
11. Internal dispersion is calculated using the asset-weighted standard deviation of annual net-of-fees returns of those portfolios that were included in the composite for the entire year.
12. Significant Cash Flow Policy: Composite does not exclude accounts due to significant cash flow.
13. The three-year annualized standard deviation measures the variability of the composite and benchmark returns over the preceding 36-month period. It is calculated ex-post using net returns.
